All procurement procedures developed and implemented by KEDC shall assure that unnecessary or duplicative items are not purchased. Where appropriate, considerations of lease and purchase alternatives will be made to determine which would be the most economical and practical procurement.

The designated supplier(s) agrees to provide total requirements as listed herein, thereby minimizing occurrences when a member may have to seek other interim product sources. Failure to deliver 100% of the items on the core item list within 48 hours shall be considered default.

17. **Delivery Crates/Trays:** Crates/Trays used to deliver products must be picked up by the vendor within fifteen days of the date of delivery. Crates/Trays left at a KPC member's site longer than fifteen days become property of the KPC member and may disposed of in any manner deemed necessary.
18. **Payments:** Each member shall be responsible for making payment to the awarded bidder. Note: normally school district members pay bills only after approval from the Board of Education which meets monthly.
19. **Audits:**
- a. KEDC reserves the right to make audits of a awarded bidder's costs records as follows:
 - i. Prior to award of contract
 - ii. Prior to approval of request for price change and following any allowed price change.
 - iii. At time of one year contract extension if awarded.
 - iv. An unscheduled audit one time during each one year bid period upon appropriate notice given to awarded bidder.
 - b. The awarded bidder shall be given notice of the intent of the cooperative to conduct an audit a minimum of four weeks in advance.
 - c. The audit may be conducted electronically via the internet or at a site mutually agreeable to KPC and the awarded bidder.
 - d. The awarded bidder shall provide acceptable documentation as follows:
 - i. Manufacturer's invoices

- ii. Freight bills
- iii. Perpetual inventory records
- iv. Market bulletins (used for distributor manufactured items and inner company billing items when price change occurs).

20. **Product Evaluation:** Samples requested must be furnished free of expense to KEDC and or the KPC member for evaluation. If not destroyed or consumed in testing or evaluating, or required in connection with the award, furnished samples will, upon request, be returned at the bidder's expense. Right is reserved to mutilate or destroy any samples if considered necessary for testing purposes.

21. **Prompt Payment Discount:** Awarded bidder may provide a prompt payment percentage discount for invoice payments postmarked less than 30 days from the invoice date, and awarded bidder must provide a satisfactory explanation to KPC of how this provision will be administered so as to enable KPC to effectively monitor and verify the discounts, and to ensure that such discounts are returned to the members.

The discount may take the form of either a deduction from the total invoice or a check in an amount equal to the same.

SOURCE CITATION: 42 USC 1753(b)(3) and 1758(a)(4) and 7 CFR Parts 210 and 220

This memorandum explains the grains requirements for the National School Lunch Program (NSLP) and the School Breakfast Program (SBP) and specifically addresses implementation of the ounce equivalencies and definition of whole grain-rich products.

The Department of Agriculture (USDA) published, "Nutrition Standards in the National School Lunch and School Breakfast Programs" on January 26, 2012. This final rule amended NSLP and SBP regulations at 7 CFR 210.10 and 220.8, updating the meal patterns and nutrition standards to align them with the 2010 *Dietary Guidelines for Americans* (DGAs) as required by Sections 4(b) and 9(a)(4) of the Richard B. Russell National School Lunch Act as amended by Section 201 of the Healthy, Hunger-Free Kids Act of 2010. The meal patterns for the NSLP and the SBP include quantities of grains based on ounce equivalencies (oz eq) in a manner that is consistent with the DGAs and the USDA food guidance system known as MyPlate. The amounts of foods included in the meal pattern, including the amount of oz eq of grains, were carefully determined through an extensive review and assessment to meet 24 nutrient targets. NSLP and SBP nutrition standards also require all grains to be whole grain-rich by school year (SY) 2014-2015.

This memorandum sets forth the criteria to be used by school food authorities (SFAs) and program operators to determine grains which meet the regulatory standards and to determine equivalent minimum serving sizes (oz eq). In addition, this memorandum includes examples of foods that qualify as grains based on the nutrition standards in the NSLP and SBP hereafter referred to as "school meal programs."

I CRITERIA FOR DETERMINING ACCEPTABLE GRAINS FOR SCHOOL MEAL PROGRAMS

The requirements to offer whole grain-rich products will be phased in for the school meal programs over the next two SYs:

For **lunch**, beginning July 1, 2012 (SY 2012-2013), through June 30, 2014 (SY 2013-2014), half of the grains offered during the school week must meet the whole grain-rich criteria. Beginning July 1, 2014, (SY 2014-2015), all grains must meet the whole grain-rich criteria.

For **breakfast**, beginning July 1, 2013 (SY 2013-2014), half of the grains offered during the school week must meet the whole grain-rich criteria. Beginning July 1, 2014, (SY 2014-2015), all grains must meet the whole grain-rich criteria.

Through SY 2013-2014, SFAs and program operators should continue to refer to *Section 3 Grains/Breads* of the *Food Buying Guide for Child Nutrition Programs* and *FCS Instruction 783 - REV 2, The Grains/Breads Requirements for Food-based Menu Planning Alternatives in the Child Nutrition Programs* for guidance on products which meet the grains requirements, but not the whole grain-rich requirements. After SY 2013-2014, all grain must be whole grain-rich in order to meet NSLP and SBP nutrition standards. The USDA is in the process of updating several resources to assist SFAs and program operators with identifying whole grain-rich foods for availability by summer 2012.

Whole Grain-Rich Criteria

In accordance with NSLP and SBP regulations at 7 CFR Parts 210 and 220, the following criteria are to be used as the basis for crediting items to meet the whole grain-rich requirement:

Foods that qualify as whole grain-rich for the school meal programs are foods that contain 100-percent whole grain or contain a blend of whole-grain meal and/or flour and enriched meal and/or flour of which at least 50-percent is whole grain. Whole grain-rich products must contain at least 50-percent whole-grains and the remaining grain, if any, must be enriched.

Schools can use the following elements as a simple checklist to evaluate if a grain product meets the whole grain-rich criteria:

Element 1: The food item must meet the oz eq requirements for the grains component as defined by this guidance.

Element 2: The food must meet at least one of the following:

- a. The whole-grain content per oz eq based on the attached Exhibit A weights must be at least 8.0 grams or more for Groups A – G. For Groups H and I, the volumes or weights listed must be offered to credit as one oz eq. This information may be determined from information provided on the product packaging or by the manufacturer, if available.
- b. The product includes the following Food and Drug Administration-approved whole-grain health claim on its packaging: “Diets rich in whole grain foods and other plant foods and low in total fat, saturated fat, and cholesterol may reduce the risk of heart disease and some cancers.”
- c. The product ingredient declaration lists whole grains first, specifically:
 - i. Non-mixed dishes (e.g., breads, cereals): whole grains must be the primary ingredient by weight (a whole grain is the first ingredient in the list with an exception for water). When the whole grain content comes from multiple ingredients, the combined whole grain ingredients may be the primary ingredient by weight even though a whole grain is not listed as the first ingredient. These products could meet the whole grain-rich criteria with proper manufacturer documentation. For example, a bread item may be made with three grain ingredients: enriched wheat flour (40% of grain), whole wheat (30% of grain), and whole oats (30% of grain). The program operator, with the assistance of manufacturers, could determine that whole grains were the primary ingredient by weight since the combined 60% whole grain ingredients are greater than the enriched wheat flour at 40% although the enriched flour may be listed first in the ingredient declaration.
 - ii. Mixed dishes (e.g., pizza, corn dogs): whole grains must be the primary grain ingredient by weight (a whole grain is the first grain ingredient in the list of grains). For foods prepared by the school food service, the recipe is used as the basis for a calculation to determine whether the total weight of whole-grain ingredients exceed the total weight of non whole-grain ingredients.

When flour blends are listed in the ingredient declaration and grouped together with parentheses, for example, ingredients: flour blend (whole wheat flour, enriched flour), sugar, cinnamon, etc., program operators will need to know either that the whole grain content is at least 8.0 grams per oz eq or that the weight of the whole grain is greater than the first ingredient listed after the flour blend such as sugar in the example.

A ready-to-eat (RTE) breakfast cereal must list a whole grain as the primary ingredient and the RTE cereal must be fortified. If the grain product includes enriched ingredients, or the

product itself is enriched; the ingredients or the grain product must meet the Food and Drug Administration's standards of identity for enrichment (21 CFR Section 137). Bran and germ are not creditable in school meal programs. Non-creditable grain ingredients in products at very low levels used as processing aids are allowable at levels less than 2-percent.

Manufacturers may apply for a Child Nutrition (CN) Label for qualifying products to indicate the number of oz eq grains that meet the whole grain-rich criteria. The term, "oz eq grains" on the CN Label indicates the product meets the whole grain-rich criteria, while the terms "bread" or "bread alternate" on the CN Label indicates the product meets previous program requirements for grains/breads. Please refer to the CN Labeling Program website for details regarding qualifying products at: www.fns.usda.gov/cnd/cnlabeling/.

II CRITERIA FOR DETERMINING EQUIVALENT MINIMUM SERVING SIZES

Pursuant to the new NSLP and SBP regulations, the updated meal patterns, which include requirements for whole-grain rich grain products based on oz eq, will become effective on July 1, 2012, the beginning of SY 2012-2013. Recognizing that operators and manufacturers which provide products for the school meal programs may require time to change specifications and revise products, we will allow SFAs and program operators to credit grain products based on the current 14.75 grams of grains per serving through SY 2012-2013. All grain products must be credited based on per oz eq standards beginning on July 1, 2013, the beginning of SY 2013-2014.

As provided for in NSLP and SBP regulations, grain products must be credited using the oz eq method. This criterion is applied to various products as follows:

- Baked goods, such as breads, biscuits, bagels, etc., require 16 grams of creditable grain ingredients in order to provide 1 oz eq credit.
- For cereal grains such as oatmeal, pasta, and brown rice, a 1-ounce equivalent is 28 grams (approximately 1.0 ounce by weight) of dry product. Since these grains are served cooked and water is added in preparation, the cooked volume equivalent is ½ cup cooked cereal, pasta, or rice.
- For ready-to-eat (RTE) breakfast cereal, 28 grams *or* 1.0 ounce of product is considered an ounce equivalent. The ounce equivalent volumes are 1 cup flakes or rounds, 1.25 cups puffed cereal, and ¼ cup granola. As with baked goods, we recognize that program operators and manufacturers may need additional time to adjust products and orders with respect to volume requirements for RTE cereal.

The new meal patterns provide a minimum and maximum number of oz eq to meet a weekly grains requirement by age group. All grains offered should be counted toward meeting these minimum and maximum requirements using the ounce equivalent or "bread" or "bread alternate" criteria in the interim. Of the weekly total for lunch, up to two (2.0) oz eq grains per week may be in the form of a grain-based dessert.

During SY 2012-2013, battered and/or breaded products offered will not need to be counted toward the maximum weekly grain requirements in the meal pattern. Beginning July 1, 2013 (SY 2013-2014), all grains which are part of battered and/or breaded products offered must be counted towards the weekly grain requirement.

The contribution of grains in a recipe or product formulation for items listed in Exhibit A, Groups A-G, may be calculated to determine the number of oz eq grains the recipe provides based on 16 grams of grain ingredients per ounce equivalent. The crediting of a food item as oz eq grains is determined by the total amount in grams of whole-grain meal and/or flour or whole-grain and enriched meal and/or flour in the product formulation or recipe divided by the number of servings the formulation or recipe yields divided by the 16 grams per oz eq standard. For the types of food items listed in Groups H and I of the attached Exhibit A to count as one full serving, the weights or volumes listed therein must be used.

One quarter (1/4) of an oz eq is the smallest amount allowable to be credited toward the quantities of grains. If the minimum daily requirement for grains is 1 oz eq, this minimum can be met by offering multiple food items, for example, 0.5 oz eq of one grain item and 0.5 oz eq of another grain item. The oz eq for grains may be determined by using either the weights or volumes listed in the attached Exhibit A, or the SFA may require documentation from a manufacturer certifying the grams of creditable grains per portion for determining the oz eq from a given product.

The attached *Exhibit A: School Lunch and Breakfast* contains the equivalent minimum weights for a wide variety of purchased food items to meet the oz eq criteria. Program operators may use Exhibit A instead of calculating the actual amount of grains in a product since it provides the equivalent minimum weights to provide one oz eq of grains. We note that the listing of food items included in Exhibit A is not exhaustive.

Exhibit A provides oz equivalent information for products commonly offered in schools. SFAs have flexibility to use a wide range of products in planning meals which meet NSLP and SBP meal pattern and nutrition specifications. However, program operators are strongly encouraged to offer food items that are low in added sugars, sodium, and saturated fat in order to meet these requirements and provide foods which are consistent with the Dietary Guidelines for Americans.

SUMMARY OF IMPLEMENTATION DATES:

Ounce equivalent requirements: All grain products must be credited based on oz eq standards beginning July 1, 2013, the beginning of SY-2013-2014. The grain component weights in the attached *Exhibit A: School Lunch and Breakfast* have been updated to reflect the change from 14.75 grams of creditable grain to 16.0 grams of creditable grain per oz eq

for Groups A-G. The original Exhibit A weights and volumes for all Child Nutrition Programs may continue to be used through June 30, 2013 for lunch and breakfast.

Whole grain-rich requirements: for lunch, beginning July 1, 2012 (SY 2012-2013), half of the grains offered during the school week must meet the whole grain-rich criteria. For breakfast, beginning July 1, 2013 (SY 2013-2014), half of the grains offered during the school week must meet the whole grain-rich criteria. Beginning July 1, 2014, (SY 2014-2015), all grains must meet the whole grain-rich criteria for lunch and breakfast. For NSLP and SBP (sections 210.10, 210.10a, 220.8, and 220.8a), this policy memorandum supersedes FCS Instruction 783 - REV 2, The Grains/Breads Requirements for Food-based Menu Planning Alternatives in the Child Nutrition Programs and the *Food Buying Guide for Child Nutrition Programs* guidance on Grains/Breads. However, the FCS Instruction 783 - REV 2, will be revised to remove the sections mentioned above and will pertain to all other Child Nutrition Programs. State Agencies should contact their Food and Nutrition Service Regional Office with any questions.

^a In the SBP, the above age-grade groups are required beginning July 1, 2013 (SY 2013-14). In SY 2012-2013 only, schools may continue to use the meal pattern for grades K-12 (see § 220.23).

^b Food items included in each food group and subgroup and amount equivalents. Minimum creditable serving is ⅓ cup.

^c One quarter-cup of dried fruit counts as ½ cup of fruit; 1 cup of leafy greens counts as ½ cup of vegetables. No more than half of the fruit or vegetable offerings may be in the form of juice. All juice must be 100% full-strength.

^d For breakfast, vegetables may be substituted for fruits, but the first two cups per week of any such substitution must be from the dark green, red/orange, beans and peas (legumes) or “Other vegetables” subgroups as defined in §210.10(c)(2)(iii).

^e The fruit quantity requirement for the SBP (5 cups/week and a minimum of 1 cup/day) is effective July 1, 2014 (SY 2014-2015).

^f Larger amounts of these vegetables may be served.

^g This category consists of “Other vegetables” as defined in §210.10(c)(2)(iii)(E). For the purposes of the NSLP, “Other vegetables” requirement may be met with any additional amounts from the dark green, red/orange, and beans/peas (legumes) vegetable subgroups as defined in §210.10(c)(2)(iii).

^h Any vegetable subgroup may be offered to meet the total weekly vegetable requirement.

ⁱ At least half of the grains offered must be whole grain-rich in the NSLP beginning July 1, 2012 (SY 2012-2013), and in the SBP beginning July 1, 2013 (SY 2013-2014). All grains must be whole grain-rich in both the NSLP and the SBP beginning July 1, 2014 (SY 2014-15).

^j In the SBP, the grain ranges must be offered beginning July 1, 2013 (SY 2013-2014).

^k There is no separate meat/meat alternate component in the SBP. Beginning July 1, 2013 (SY 2013-2014), schools may substitute 1 oz. eq. of meat/meat alternate for 1 oz. eq. of grains after the minimum daily grains requirement is met.

^l Fluid milk must be low-fat (1 percent milk fat or less, unflavored) or fat-free (unflavored or flavored).

^m The average daily amount of calories for a 5-day school week must be within the range (at least the minimum and no more than the maximum values).

ⁿ Discretionary sources of calories (solid fats and added sugars) may be added to the meal pattern if within the specifications for calories, saturated fat, trans fat, and sodium. Foods of minimal nutritional value and fluid milk with fat content greater than 1 percent milk fat are not allowed.

^o In the SBP, calories and trans fat specifications take effect beginning July 1, 2013 (SY 2013-2014).

^p Final sodium specifications are to be reached by SY 2022-2023 or July 1, 2022. Intermediate sodium specifications are established for SY 2014-2015 and 2017-2018. See required intermediate specifications in § 210.10(f)(3) for lunches and § 220.8(f)(3) for breakfast

SUBJECT: Procurement Questions Relevant to the Buy American Provision

TO: State Directors

All States

Please be aware that the original policy memorandum from April 17, 2006, (SP 20-2006) has been revised. This policy memorandum supersedes the previous version, as changes have been made for clarification purposes.

The changes amount to a rewrite of the answer to Question 3. The current version supersedes Question 3 in SP 20-2006.

Questions and Answers for Buy American Provision (SP20-2006 Revised)

1) Question: What are the requirements of the Richard B. Russell National School Lunch Act's (NSLA) Buy American provision that school food authorities (SFAs) must follow when purchasing food and food products for use in the Child Nutrition Programs?

Answer: Section 104(d) of the William F. Goodling Child Nutrition Reauthorization Act of 1998 (Public Law 105-336) added a new provision, Section 12(n) of the NSLA (42 USC 1760(n)), requiring SFAs to purchase domestically grown and processed foods, to the maximum extent practicable. Purchases made in accordance with the Buy American provision must still follow the applicable procurement rules calling for free and open competition.

2) Question: How would an SFA determine it's a "domestic commodity or product"?

Answer: Section 12(n) of the NSLA defines "domestic commodity or product" as one that is produced and processed in the United States substantially using agricultural commodities that are produced in the United States. One of the reports accompanying the legislation noted that "substantially" means that over 51% of the final processed product consists of agricultural commodities that were grown domestically.

3) Question: Are there any exceptions to the requirements of the Buy American provision?

Answer: Yes. While rare, two situations which may warrant a waiver to permit purchases of foreign food products are: 1) the product is not produced or manufactured in the U.S. in sufficient and reasonable available quantities of a satisfactory quality; or 2) competitive bids reveal the costs of a U.S. product are significantly higher than the foreign product.

4) Question: Does the "Buy American" provision apply to entities that purchase on behalf of an SFA, such as a purchasing cooperative or a food service management company?

Answer: Yes. Any entity that purchases food or food products on behalf of the SFA must follow the same "Buy American" provisions that the SFA is required to follow.

5) Question: Does the "Buy American" provision apply only to purchases made using Federal funds under the Child Nutrition Programs?

Answer: No. SFAs must ensure that all procurements using funds from the nonprofit school food service account comply with the Buy American provision. Pursuant to Child Nutrition Program regulations, all Federal funds, all money received from children as payment for program meals, all proceeds from the sale of competitive foods, and all other income generated by the school food service must accrue to the food service account. As a consequence, the entire nonprofit school food service account becomes subject to Federal procurement standards.

6) Question: What can an SFA do to comply with the requirements of the Buy American provision?

Answer: There are a number of ways SFAs can comply with the provision. SFAs should be including a Buy American clause in all product specifications, bid solicitations, requests for proposals (RFPs), purchase orders, and other procurement documents issued. Additionally, SFAs are required by 7 CFR 3016.36(b)(2) to monitor contractor performance to ensure compliance with all contractual requirements, including the Buy American provision. SFAs can also ask their suppliers to provide certification as to the origin of the product which is discussed in more detail in question #9.

7) Question: How should an SFA determine the country of origin for an end product?

Answer: For manufactured end products, there is a two-part test to define end product:

(1) the article must be manufactured in the United States; and (2) the cost of domestic components must exceed 50 percent of the cost of all the components. It is not enough to assume that a product with a well recognized American brand name or product supplied by a domestic foodservice distributor complies with the Buy American provision. SFAs should inquire further with their suppliers to determine the country of origin for an end product because some products sold in school meals may carry the name brand of domestic company but the product itself may derive from another country. SFAs should also examine product packaging as the Nutrition Labeling and Education Act of 1990 mandates that the country of origin for both domestic and imported food products be identified on the product labels.

8) Question: Should SFAs rely on the distributors' reliance on information from American suppliers about the amount of domestic content in the parts, components, and other elements they buy and use for their final products?

Answer: According to the Federal Trade Commission, if given in good faith, entities can rely on information from foodservice distributors about the domestic content in the parts, components, and other elements contained in the product. However, rather than assume that the content is 100 percent U.S.-made, SFAs would be wise to ask the supplier, i.e., manufacturer or distributor, for specific information about the percentage of U.S. content. SFAs can include in their bidding process a requirement for certification along the lines of: "We require that suppliers certify the percentage of U.S. content in products supplied to us. If you are unable or unwilling to make such certification, we will not purchase from you." Appearing under this statement could be the sentence, "We certify that our _____ have at least ____ % U.S. content," with space for the supplier to fill in the name of the product and its percentage of U.S. content.

9) Question: Doesn't this place some of the burden on the manufacturers and distributors of food and food products in the Child Nutrition Programs?

Answer: Yes. The ability to certify, as required by the terms of the contract with the SFA, will require that manufacturers and processors look back far enough in the manufacturing process to be reasonably sure that any significant foreign content has been identified.
