✓	Price Analysis Method(s) Used:	Further Explanation:
	◆ Adequate Price Competition	<p>The contract value estimate is based on the sales history for the 2019-2020 and 2020-2021 school years. Two school years were used for the contract estimate due to COVID-19 restrictions and circumstances.</p> <p>The price analysis is based on the current contract item pricing and KVEC's published price list.</p>
	◆ Catalog/Market Pricing	
	◆ Set by Law or Regulation	
✓	◆ Previous Purchases/Historical Pricing	
	◆ Contracted by Federal Government	
	◆ In-House Estimates	
	◆ Paid by Other Districts	
✓	◆ Compared to a Substantially Similar Item	
	◆ Provided by RFIs	
✓	Other Factors to Consider	
✓	◆ Market Conditions	<p>Market conditions are volatile due to Covid-19 which may adversely affect pricing. As this is a cooperative solicitation with participants from across the state, ensuring maximum competition is always a concern. Product availability continues to be a factor of concern due to the Federal Child Nutrition guidelines.</p>
	◆ Quantity or Size

Cost Analysis: (Possible considerations—Unit Costs, Delivery, Labor, Processing, Installation, Profit etc.)

The Analysis included a review of KEDC's current bakery contract pricing and KVEC's published bakery price list for the 2020-2021 school years. The future contract value was estimated using the average total sales from the current and previous school years. The geographical make up of Kentucky and regional locations of the distributors are two factors that have limited the competition in the past for the cooperative bid. The combination of these two factors with the volatile market due to COVID-19 could restrict competition even further for the 2021-2022 school year.
